Hey! I'm Kev, a front-end development enthusiast with a passion for continuous learning and knowledge sharing. I stand out for my proactivity, leadership capacity, and ability to create innovative ideas. Valuing the importance of active listening, I consider it fundamental to expand my knowledge and contribute to collective growth. My dedication to development focuses on applying new skills to improve user experience and create more user-friendly interfaces.

WORK EXPERIENCE

Freelance Developer   Feb 2024
Construelectric JV S.A.S

- I developed a visually attractive landing page for an electrical and plumbing services company based in Chile.
- I implemented robust SEO strategies to consistently position the site within the top 5 Google results for the targeted queries.
- I maintained active and effective communication with the client, showcasing strong interpersonal skills and the ability to understand and implement client requirements.

Centro LEO - ICESI University   Aug 2018 - Jun 2019
University Reading and Writing Monitor   *Cali, Colombia*

- I developed active communication and problem-solving skills, helping students with challenges related to their studies.
- I improved my analytical skills through a deep understanding of others' work, which was essential to provide effective guidance and support.
- I enhanced my soft skills by actively working with other monitors, creating an environment of collaborative learning and teamwork.

EDUCATION

Self Taught
Fullstack development

I acquired skills in **HTML**, **CSS**, and **JavaScript** through self-study and a significant number of practical projects, demonstrating a strong commitment to continuous learning, staying up-to-date with the latest technologies, and best practices in the web development industry.

Servicio Nacional de Aprendizaje SENA   Pereira, Colombia
Information systems   *Oct 2016*

EjePets

A website close to my roots, where I showcase all the local businesses offering services for pets in my city, making them accessible to my community for the well-being of our best friends. I implemented a creative and highly personal design, deeply rooted in my city and easily recognizable by its target audience. From a technical standpoint, I used services such as Firebase and an administrative panel to efficiently manage the content, as well as implemented tools like Leaflet and Next.js.

Personal finances tracker with recurrence system. Keep track of your money and your subscriptions.

Under development

INTERESTS

- Science, with a special affinity for biochemistry, physics and astronomy.
- Teaching, because I love sharing what I know, and it is gratifying for me to see others improve.
- Music, influencing a lot in my identity, playing guitar gets me closer to myself.
